

Sarah Jenkins San Francisco, CA | (555) 123-4567 | sarah.jenkins@email.com | [linkedin.com/in/sarahjenkins](https://www.linkedin.com/in/sarahjenkins)

Objective: Innovative Software Engineer with 5+ years of experience specializing in Python backend development and machine learning pipelines. Passionate about building scalable web applications and automating workflows.

Skills:

- **Languages:** Python, SQL, JavaScript
- **Frameworks/Libraries:** Streamlit, Django, scikit-learn, Pandas, NumPy
- **Tools:** Docker, Git, AWS (S3, EC2), PostgreSQL
- **Soft Skills:** Agile Methodology, Team Leadership, Problem Solving

Experience: Senior Python Developer | TechFlow Solutions | Jan 2021 – Present

- Developed and deployed interactive data dashboards using Python and Streamlit, reducing reporting time by 40%.
- Integrated machine learning models (scikit-learn) into production APIs to categorize incoming customer support tickets automatically.
- Containerized applications using Docker and deployed them scalable on AWS.

Software Engineer | DataCorp | June 2018 – Dec 2020

- Designed RESTful APIs using Django to support a frontend React application.
- Optimized complex SQL queries, improving database retrieval speeds by 25%.

Education: Bachelor of Science in Computer Science University of California, Berkeley | Graduated: May 2018
